

WHY POLYMER COATED J / L / PIPE BOLTS ?

- ◆ 06 to 08 times longer life (even when the cost is less than 02 times as compared to G.I. bolts)
- ◆ **Recommended by CPWD (Please refer DSR 14 - Roofing-code No. 12). CPWD does not recommend Self Tapping Screws for fixing roofing sheets.**
- ◆ Tested, Certified and Branded product - backed by tests and trials at CIPET (Central Institute of Plastics, Engineering and Technology)
- ◆ Cyclone / Storm resistant.
- ◆ No need of Water proofing
- ◆ Dimensions as per choice
- ◆ Good quality Galvanizing with Sufficient thickness
- ◆ Smooth meshing threads
- ◆ Protection of threaded portion from corrosion
- ◆ Reduction in risky roof top movements
- ◆ Ready to fix type Bolts, Nuts, Washers and Caps (fix and forget type)
- ◆ Installing is easy and clean
- ◆ Removal of Bolts for sheet replacement etc. are easy (and hence no need of chipping / hammering)
